Bible Club Awards

Quizzers will be asked questions in the same fashion as if they were in a quiz match, but they are not required to activate any equipment or be identified before responding. Their response should be evaluated using the same criteria used in a quiz match (for detail please reference the official JBQ guidelines).

The person administering the test must not be an immediate family member to the person being tested. Breaks, for study, between the first and last questions are not allowed. Each test should be administered in one complete sitting and only one test may be administered per day.

To pass quizzers must answer all questions correctly from the study guide being tested on.
